

I am happy to state that the journey we started seventeen years ago has come to a rewarding stage where we cherish enhanced vision and bigger dreams. Indian boys and girls have tremendous talent, merit and potential, for growth. We at SCS provide an excellent opportunity and environment by acting as a catalyst and facilitator to develop their potential, promote their success through quality education, using appropriate tools, techniques and values. The dedication and commitment of the faculty, active support and co-operation of the parents and the enthusiastic efforts of the students have made the teaching-learning process smooth and speedy. I assure both, the parents and the students, that our school is fast emerging as an excellent launching ground for their success. Our endeavor is not to transfer the printed material from the book to the brains; our mission is to provide skills, knowledge and the environment in which our students may learn to appreciate and understand modern technology, develop strength of character, imbibe social sensitivity and a modern futuristic global outlook along with the respect for our rich cultural heritage. While welcoming you to this lovely stimulating land of Bhatner Nagri (Hanumagarh), Rajasthan having a glorious history, I wish my students and staff every success and proud achievements at Sachkhand Convent School. It is my constant prayer to God to make your time spent in the school exceedingly rewarding, result oriented, pleasant and glorious.

We look forward to your continued support.

Regards

Malkeet Singh Maan
